➤ E-Library facilities

Internet Access:-

Library provides Internet services to its users. There are 10 Computers in the library, which have Internet Connection for the users.

There is also a facility to get printouts or to get downloaded data from the Internet saved in CD for users.

Teachers can prepare their lectures on the computers using power point software.

DELNET facility:-

The Library is a member of National Level library Network called DELNET (Developing Library Network) through which our library users can access a large number of E-books and E- journals. Through DELNET, library also provides on demand books and articles by using Inter Library Loan (ILL) facility.

Video Cassettes & CD-ROM facilities:-

Library has multimedia facility with more than 860 Educational Video Cassettes & CDs available in Audio-visual library. These can be viewed by library users.

- Research focus
List of typical research projects.
This is the first year of M.Tech. programme. It is proposed that emphasis for research will be given in the area of:
 - Network Security
 - Mobile Computing
 - Data Mining
 - Neural Networks**However for the purpose of students this will be effective only after one year when the present students come to the second year i.e. 4th semester.**

- Industry Linkage
To improve productivity, matching the skills of young engineers with the industry requirement and to develop such attributes, need of the hour is to mould the technical education with industry orientation.
In view of that JMIT has a fully operational entrepreneurship development and Training & Placement Cells.
Following are a few of the activities under taken in JMIT for developing a functional & healthy linkage with Industry.
 1. We arrange industrial training for students and identify student project work in industry. We encourage industry to collaborate in industry study tour programmes and placement of students.
 2. We interact with R&D organizations for conducting joint research work involving faculty/scientists and students/research scholars etc.
 3. Getting professionals from industry as visiting faculty or appoint professors for short or long periods & work on projects in industry.
 4. Personality development workshops for students related with soft skills (communication skills/personality development).
 5. Arrange technical festivals/open houses/students design competitions.
 6. Promotion of income generation activities namely: Testing, Calibration, Consultancy and R&D (for achieving self sustenance of the cell).
 7. Finding solutions of various problems faced by the industry during production and operation of the industrial units.
 8. Signing MOU's with industry and Institutes.
 9. Library and information services to the industries. The library is fully computerized. The software by the developed by the teachers and students. The same is being implemented in various other colleges by JMIT.
 10. Access to institute research information service.
